PHILOSOPHY

Tiny Tots is a license exempt early childhood education program located inside the Petaluma Community Center. The preschool has a 1:12 teacher to child ratio and our Kinder Ready Program has a 1:8 ratio.

We believe that young children learn best through play. They are able to develop socially, intellectually, emotionally, and physically in a safe environment under the supervision of caring and trained adults. We strive to give each child a positive first learning experience. They learn social skills, expressive language, cognitive development and fine and gross motor skills through play and age appropriate activities. Your child will gain confidence, self esteem, form friendships and gain the necessary skills to prepare them for kindergarten.

PROGRAMS

TINY TOTS:

We offer small children the fun of learning through their own active discovery in art, music, stories, and dramatic play. An outdoor curriculum for active learning and physical fitness is also included. Interacting with other children their own age allows the preschool child to gain skills, have fun, and develop emotionally under careful adult supervision. We do not offer extended day care for children.

KINDER READY:

The purpose of our new program, Kinder Ready, is to provide an opportunity for 4-year-old children who will be entering Kindergarten in the Fall, to have an opportunity to work in small groups with their teacher and develop necessary skills that will prepare them for Kindergarten. The children will work closely with a teacher who will be able to track their progress and develop curriculum that will enhance their preschool experience. We will cover cognitive, social, language arts, fine and gross motor skills.

LUNCH BUNCH:

This program is an opportunity for your child to come share lunch with friends and teachers in the preschool classroom. Students can bring a lunch, and enjoy free play with their friends. Sign up on a daily basis as needed or a month at a time.

DAILY SCHEDULE

Our time together each day is spent encouraging our small children to learn and have fun with friends their own age. Our curriculum is based on selected themes and is implemented through various techniques, including art, music, stories, creative play, and cooking. Activities are geared with the developmental and skill levels of the children considered. Periods of active play and quiet times are varied. Weather permitting, we provide daily outdoor curriculum and free play in Lucchesi Park on indoor play in the many rooms available to us in the Community Center.

Our outdoor curriculum will also include walks around our neighborhood and in our park. On occasion, we invite guests into the classroom to talk with children. We will keep you informed of all such matters.
