

## **CITY OF PETALUMA**

### **PRE-NOTICE INVITING BIDS: Runway Electrical Improvements Project**

#### **C61501604**

Public notice is hereby given that the City of Petaluma intends to issue a request for bids for the above referenced project pending FAA review and completion. This notice is to inform any interested qualified General Contractors that the City will give contractors the opportunity to understand the project and to provide an informed bid on the project.

The Project consists of three work elements:

1. Runway 11-29 Edge Lighting Improvements: The existing runway and taxiway edge lights will be replaced with new base cans, LED fixtures, transformers, and cable. A total of 66 lights will be replaced. Trenching will be performed to install new electrical conduit and light cans. The improvements will also include counterpoise wire, as well as new pull boxes and junction cans.
2. Runway 11-29 Holding Position Sign Improvements: Five unlighted airfield guidance signs will be replaced with lighted signs, and two additional lighted signs will be installed. New electrical cable and conduit will be installed to accommodate the lighted signs. The new sign installations will consist of new LED lighted signs, concrete pads, junction cans, transformers, and cable.
3. Supplemental Wind Cone Replacement: The existing supplemental wind cone, power converter, and foundation will be removed, and a new supplemental wind cone and foundation will be installed. New cable and conduit will also be installed to replace the existing cable connecting to the runway circuit.

The preliminary Engineers Estimate is \$472,150.

Full notice, exact time and date of the pre-bid conference and site visit, and complete details of the RFP are expected to be released in April 2019 with completion of the project by December 31, 2019
